**General information**

Change contaminated, saturated clothing. In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

**After inhalation**

In case of inhalation of decomposition products, affected person should be moved into fresh air and kept still.
After contact with skin
   After contact with skin, wash immediately with plenty of water and soap. Seek medical advice immediately.
   Do not wash with: Solvents/Thinner

After contact with eyes
   After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an ophthalmologist immediately.

After ingestion
   If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.
   Do NOT induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed
   Immediate medical treatment required because corrosive injuries that are not treated are hard to cure.
   Symptoms may develop several hours following exposure; medical observation therefore necessary for at least 48 hours.
