SECTION 4: First aid measures

4.1. Description of first aid measures

General information

Change contaminated, saturated clothing. In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

After inhalation

In case of inhalation of decomposition products, affected person should be moved into fresh air and kept still.

After contact with skin

After contact with skin, wash immediately with plenty of water and soap. Seek medical advice immediately.
Do not wash with: Solvents/Thinner

After contact with eyes

After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an
ophthalmologist immediately.

**After ingestion**
- If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.
- Do NOT induce vomiting.

**4.2. Most important symptoms and effects, both acute and delayed**
- Immediate medical treatment required because corrosive injuries that are not treated are hard to cure.
- Symptoms may develop several hours following exposure; medical observation therefore necessary for at least 48 hours.

**4.3. Indication of any immediate medical attention and special treatment needed**
- First Aid, decontamination, treatment of symptoms.
- After contact with skin, wash immediately with plenty of Lutrol.

### SECTION 5: Firefighting measures

**5.1. Extinguishing media**
- **Suitable extinguishing media**
  - Dry extinguishing powder.
  - Carbon dioxide (CO2).
  - Alcohol resistant foam.
  - Water spray jet.
- **Unsuitable extinguishing media**
  - High power water jet.

**5.2. Special hazards arising from the substance or mixture**
- Carbon monoxide.
- Carbon dioxide (CO2).
- Nitrogen oxides (NOx).

**5.3. Advice for firefighters**
- Special protective equipment for firefighters: Protective clothing. In case of fire: Wear self-contained breathing apparatus.
- Co-ordinate fire-fighting measures to the fire surroundings.

**Additional information**
- Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

### SECTION 6: Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**
- See protective measures under point 7 and 8.
- Provide adequate ventilation.
- Personal protection equipment: see section 8.
- Remove persons to safety.

**6.2. Environmental precautions**
- Do not allow to enter into surface water or drains. Cover drains. Adverse environmental effects.

**6.3. Methods and material for containment and cleaning up**
- Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

**6.4. Reference to other sections**
- See protective measures under point 7 and 8.
- Disposal: see section 13.

### SECTION 7: Handling and storage

**7.1. Precautions for safe handling**
- **Advice on safe handling**
  - See section 8. Wear personal protection equipment (refer to section 8). Keep container tightly closed.
